

## **MRI Safety Screening Form**

## Everyone must complete the following questionnaire prior to MRI scan

Subject Information (Fill in at time of scan only)				Subject Study ID			
LAST NAME: FIRST NAME: For staff or contractor, indicate your company & profession:				Subject Study ID			
DATE OF BIRTH HEIGHTcmft' in* WEIGHTkglbs							
	YYYY MM DD						
Your safety is very important to us. Please complete the following to help us keep you safe.  If you need help filling out the form, please let a staff member know.  The MRI scanner is a very strong magnet. It might be unsafe if you have had surgeries with certain metal or electronic implants.  For the MRI scan, you must remove all body piercings, hair accessories, jewelry, hearing aids, credit cards, coins, and other metallic or electronic personal items (watches, phones, etc.). Please tell us if you cannot remove any of these items.  To keep you as safe as possible, you must wear a hospital gown. You must remove undergarments that are not 100% cotton or cotton/polyester blend. Athletic							
undergarments can have metallic fibres and could cause a skin burn.							
We provide you with a locker to secure your belongings.							
List all previous surgeries and approximate dates (if you require more space, please let a staff member know):  \[ \begin{align*} \text{List all allergies:} \]  \[ \text{No surgery of any kind} \]  List any medical procedures in the last 6 weeks (include <b>tattoos, injections, biopsies, colonoscopies, acupuncture</b> ):							
				☐ No known allergi	es		
Tell us about any implanted medical devices or other possible hazards that could affect the N							
IMPLANTED MEDICAL DEVICES		YES	NO		OTHER POSSIBLE HAZARDS	YES	NO
1	Stents, filters or coils			1	Injury to your eye from a metal object
