

THE UNIVERSITY OF BRITISH COLUMBIA

### UBC MRI Research Centre Cancellation Policy during the COVID-19 Pandemic

Reason for Cancellation:	Cancellation Charge:
Cancellations due to subject personal illness, subject not passing verbal COVID-19 screening, subject decides not to attend appointment due to COVID-19 concerns	No fee will be charged
Cancellations due to subject no show, unable to complete scan (i.e. safety screening failure, claustrophobia)	The cost of the booking will be charged

While we appreciate as much notice as possible, there is no time limit to this policy (appointments can be cancelled the same day without charge).

We expect researchers to make all bookings in good faith and ask that you attempt to fill the vacated booking (e.g. with a control subject). We want to maintain the safety of our subjects and staff while ensuring everyone attending the centre is comfortable doing so.

Thank-you,

UBC MRI Research Centre
